

Hello my name is Russell from Fivestar collision in Westport mass I am emailing you in regards to the recent labor bills for the autobody association Labor reimbursement rate. This is something that needs to move forward and pass as soon as possible. The autobody industry is in dire need and if this bill is not pass you'll see this industry decline by at least half in the next five to ten years. our auto body industry has been suppressed at a \$40 dollar an hour reimbursement rate for the last 15+ years at this point it's inhumane to keep moving forward this way please help with this bill and pass it thank you.
